

1100 - Opt Out or Deauth Trying !- Anti-Tracking Bots Radios and Keystroke Injection

Thursday at 11:00 in 101 Track 2

45 minutes | 0025, Demo, Tool, Exploit

Weston Hecker*Principal Application Security Engineer, "NCR"*

It's hard not to use a service now days that doesn't track your every move and keystroke if you absolutely must use these systems why not give them the most useless information possible. Along with the fact that several companies are tracking their customers online now they are taking it to physical brick and mortar stores this talk will be geared looking at the attack surface of instore tracking and attacking these systems for the purpose of overloading their systems or making the information so inaccurate that it becomes useless. Watch as a 32 year old hackers online profile is turned to that of a 12 year old girl who loves horses!

Weston Hecker

With 12 Years Pen-testing, 13 years' security research and programming experience. Weston is currently working on the application security team of NCR Weston has recently Spoken at DEF CON 22,23 and 24, Blackhat 2016, HOPE11, Hardware.IO 2016, Takdowncon 2016, ICS cyber security 2016, Bsides Boston, Enterprise Connect 2016 ISC2-Security Congress, SC-Congress Toronto and over 60 other speaking engagements from regional events to universities on security subject matter. Working with A Major University's research project with Department of Homeland Security on 911 emergency systems and attack mitigation. Found several vulnerabilities' in very popular software and firmware. Including Microsoft, Qualcomm, Samsung, HTC, Verizon.
